

Advocacy and Resource Center

The Advocacy and Resource Center's Transportation Department is dedicated to providing efficient, consistent and safe door to door transportation services to the individuals who reside in our service area and have been qualified to receive our services through the New York State Office of People with Developmental Disabilities. All Transportation Department buses provided through the FTA Section 5310 Program are equipped with wheelchair lifts with lift platform dimensions of 48" long by 33' wide with a weight capacity up to 800 lbs. Each bus is equipped with at least two wheelchair positions. Please contact the Transportation Department to see if alternate arrangements are possible if your wheelchair exceeds the lift capacities.
